Males: 457

**Fridley High School International Baccalaureate – Middle Years Programme**

Fridley High School was authorized to teach the International Baccalaureate Middle Years Programme in July 2007. Fridley High School began the implementation process in September of 2004. All 9<sup>th</sup> & 10<sup>th</sup> grade students participate in the MYP.

**Fridley’s MYP Mission**

Our mission is to develop a world-class community of learners who exhibit academic excellence, act with compassion, and make responsible decisions in a rapidly changing, interrelated world.

**Fridley’s MYP Vision**

The Middle Years Programme encourages learners to question and evaluate information critically, seek out and explore links between subjects, and develop the knowledge, attitudes and skills necessary to appreciate their roles in the world. Learners will develop their own effective approaches to learning – including the ability to learn to think and the ability to think to learn. Through participation in a rigorous, internationally recognized program, learners will gain self-confidence to act individually and collaboratively.
